Planning for Christmas

No, not yet *another* reminder about how many shopping days till Christmas. Instead we would like to offer a few ideas and suggestions about how to protect yourself and your possessions, both in the workplace and at home, during the holiday season.

At home:

- Christmas presents are wonderful, and particularly attractive to those people who prefer to steal yours rather than face the Christmas rush and expense. Always ensure that your house and car are secure, and gifts are kept out of sight.
- Always tell people if you are planning to be away – tell the local Neighbourhood Watch if you have one, and if you have any particular concerns, let us know as well
- Remember that candles are pretty – but always ensure that they are on a safe surface and completely snuffed when you leave the room, even for a few minutes.

At work:

- Ensure that all the security arrangements are in place for the days that you are closed over the holiday season, and communicated to all interested parties. Plan in advance.
- If there are fewer people working than usual, have you made “lone worker” arrangements?

If you have any special needs or concerns, please contact us for advice.
